Forecast for Tuesday 15 Aug 2023

Weather: Early morning low cloud lifting to leave a mainly dry day with sunny intervals. There is a chance of a few light showers developing around late morning and early afternoon, these perhaps locally moderate. Any showers fading away through the afternoon to leave a dry end to the day with a good amount of late sunny spells and then clear intervals.

Chance of cloud-free hill tops above 600m: 40% becoming 95%.

Low cloud and visibility: Low cloud with bases of 300-500m at first, lifting above 600m by mid-morning then lifting above summits by late morning, although the odd patch may come and go at 700-800m in association with any showers. Generally very good visibility with far reaching views, but locally poor in showers and very poor in any cloud.
